OPEN PLATFORM FIRMWARE (OPF)

Building Bridges for Adoption: OCP, Standards Bodies, and Open-Source Firmware

Michael Kinney *[Principal Engineer Firmware, Intel]*

Christian Walter *[Managing Director Firmware, 9elements]*

Dong Wei *[Fellow and Lead Standards Architect, ARM]*

Allison Goodman *[Sr. Principal Engineer Systems and Firmware]*

OCP PLATINUM Member

Panel Discussion

Michael Kinney

Principal Engineer, Firmware
Intel

Christian Walter

Managing Director Firmware,
9elements

Dong Wei

Fellow and Lead Standards Architect
ARM

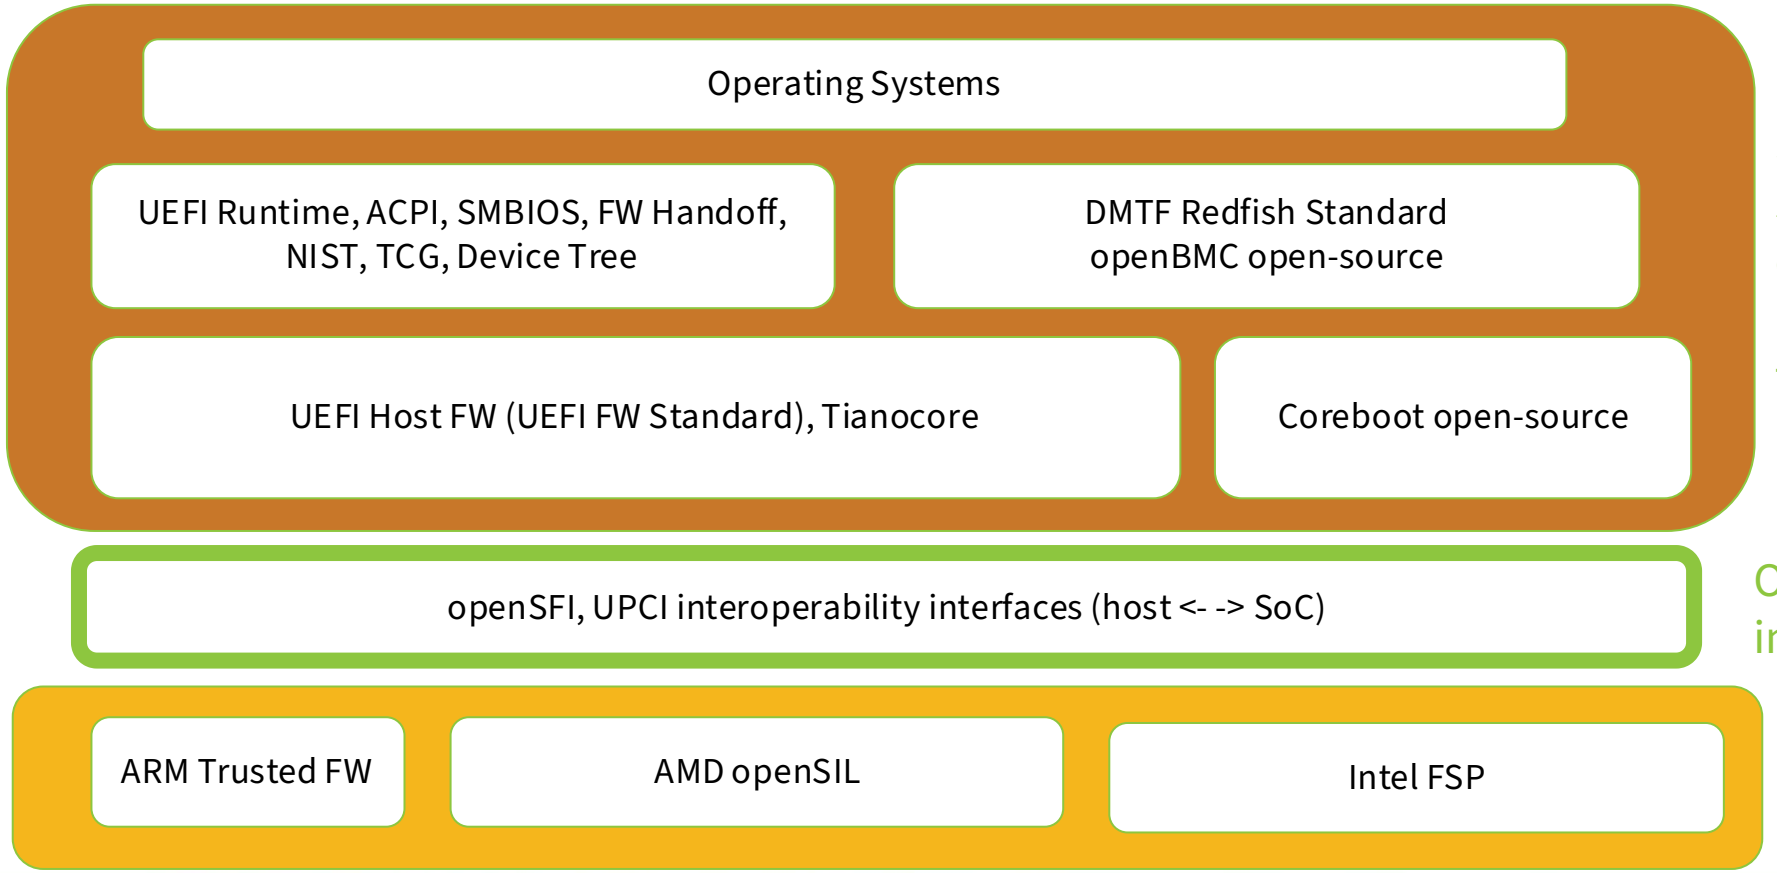

Allison Goodman

Sr. Principal Engineer, Systems and Firmware

Moving from “Versus” to “Collaboration”

Landscape of Collaboration Touch Points with other Standards and Open-Source Repos

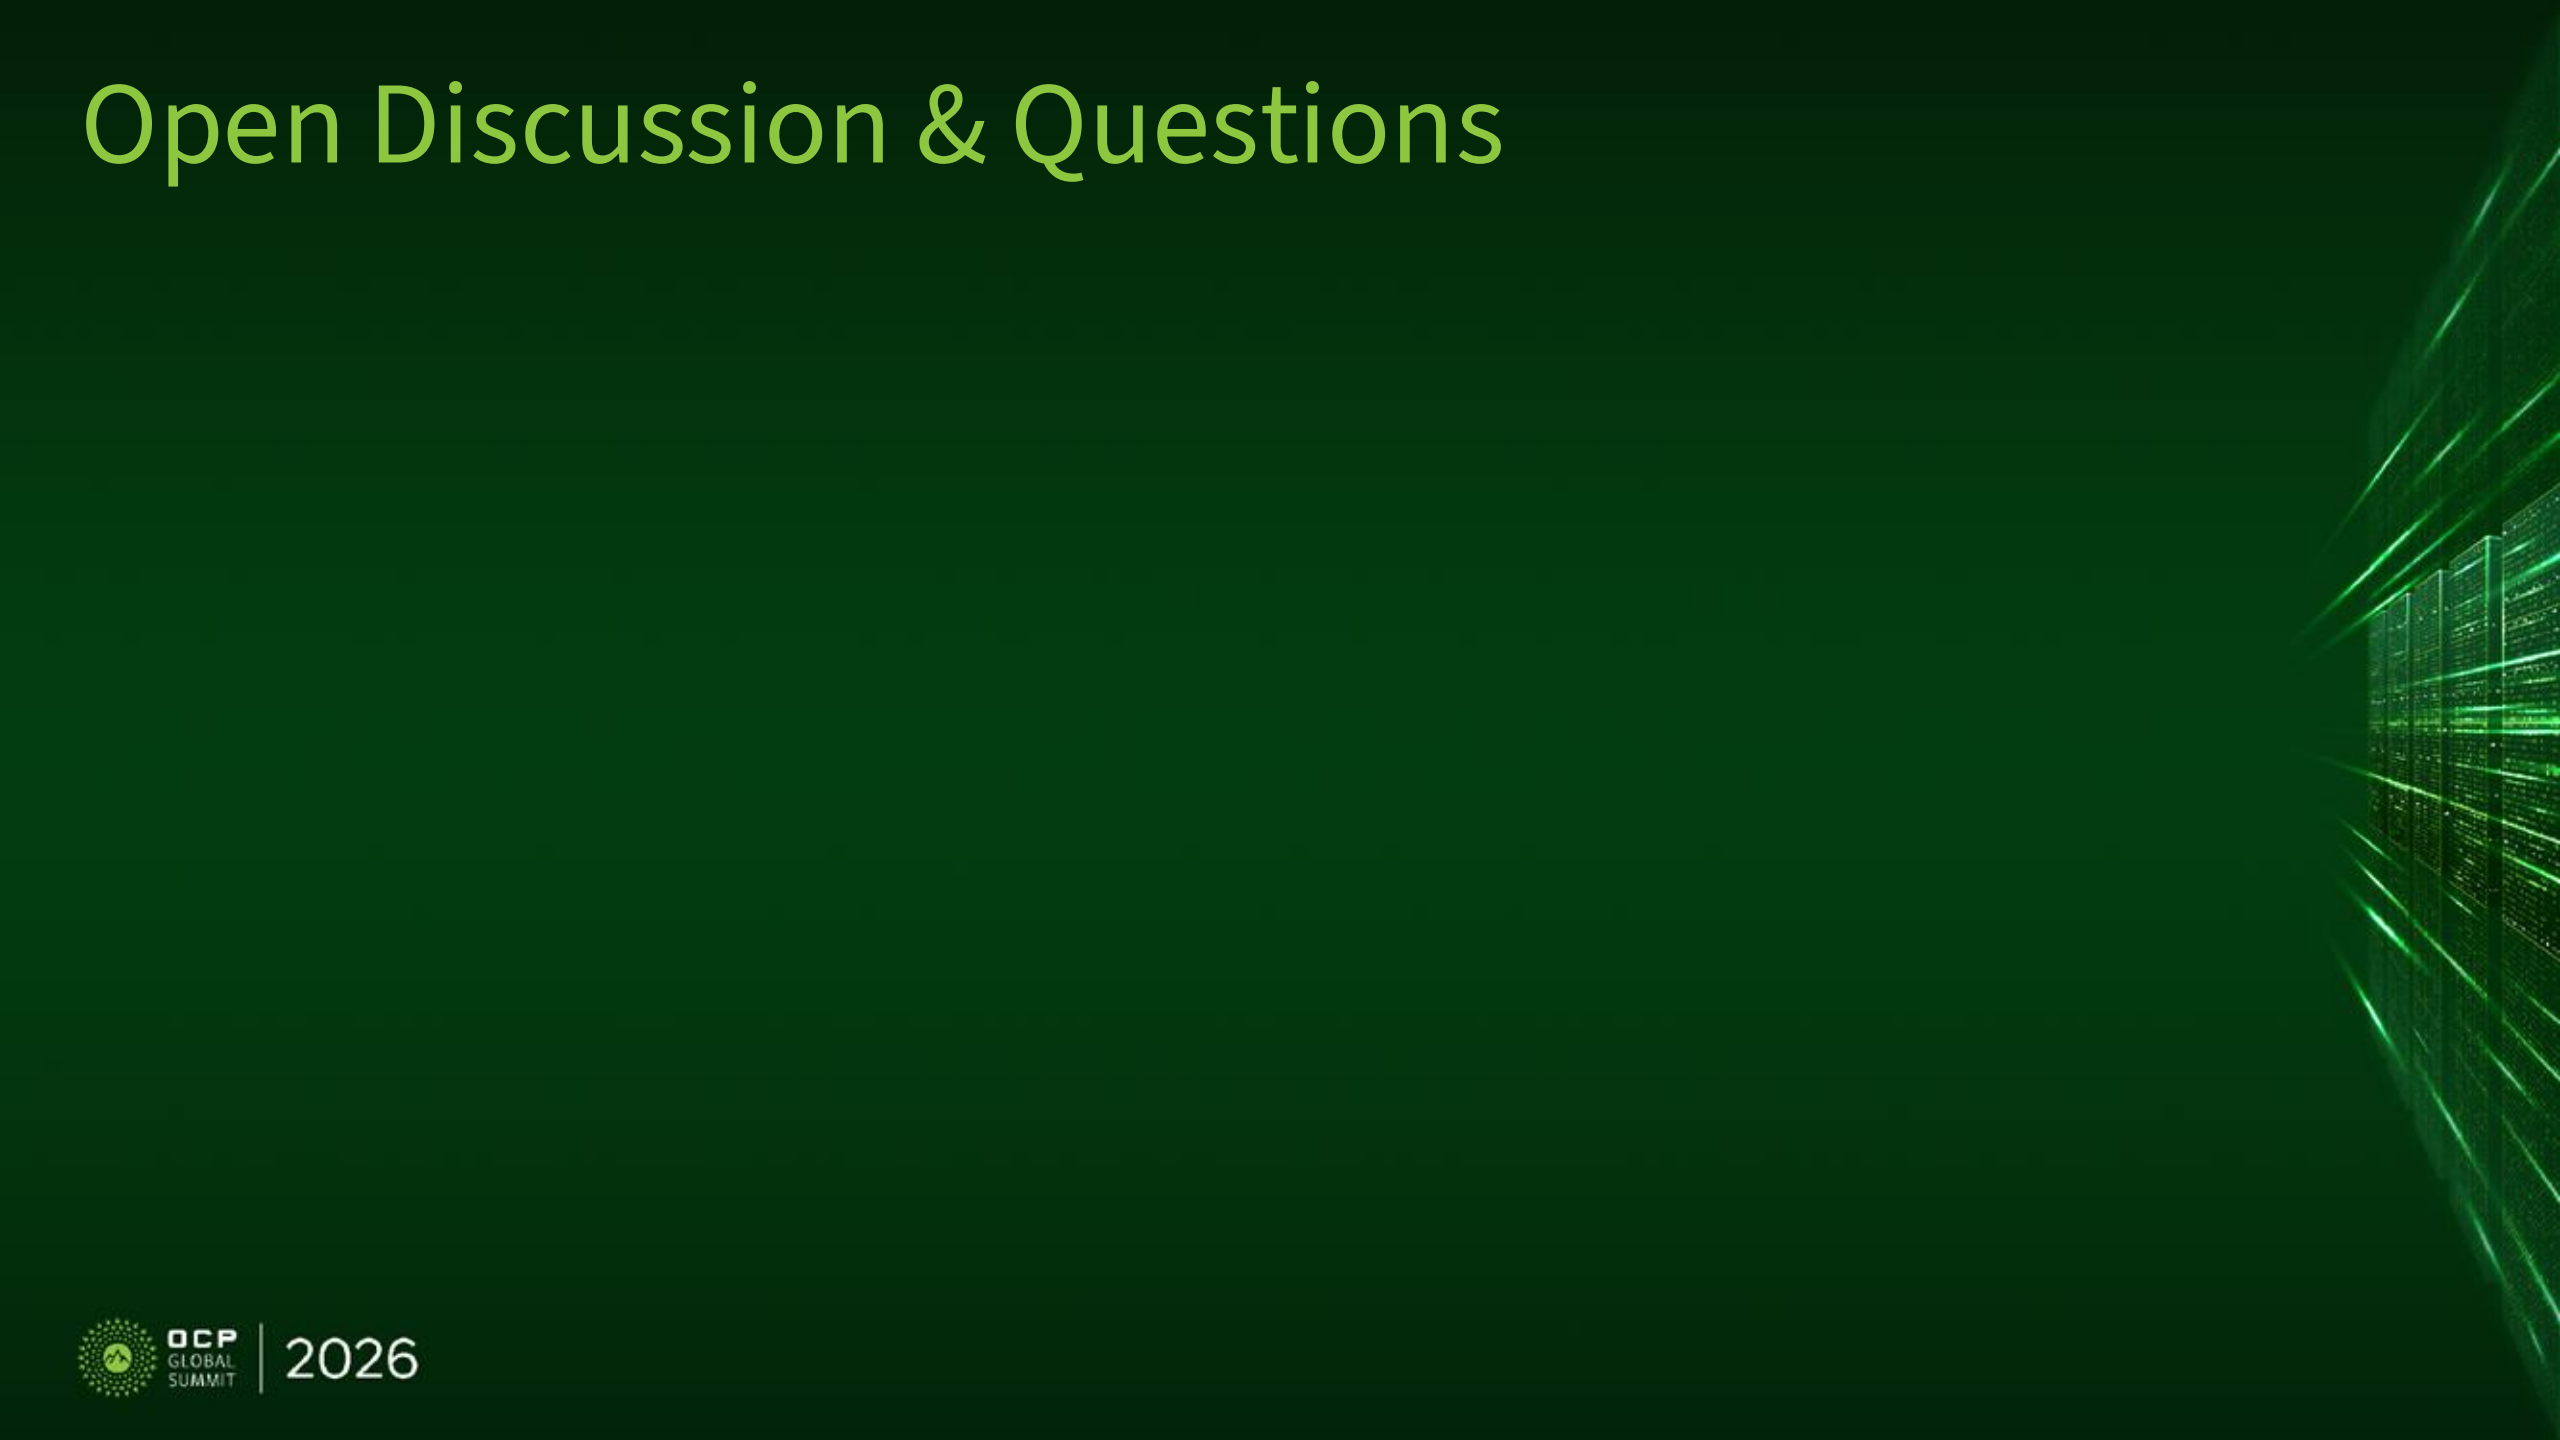

Examples of Industry Standards & open-source repos for collaboration calling into & getting data from openSFI & UPCI

OCP OPF openSFI interface

Silicon Vendor Specific Public Standards

Open Discussion & Questions

Thank You & Call to Action

- Be a Connector!
  - Help educate open-source communities about work in OCP OPF Project
    - Engage and participate in a code-first approach
  - Help educate industry standard bodies about work in OCP OPF Project
    - Sponsor and advocate for changes to specs as needed
  - Facilitate two-way dialogues

- Let’s learn and role model leveraging strengths of OCP, standards bodies, and open-source firmware and collaborating across the industry
- Reach out if you have suggestions!
- Where to find additional information (URL links)
  - Project Wiki with latest specification: https://github.com/opencomputeproject/OpenSystemFirmware/wiki

Panel Plan - to be removed on final submission

Thursday, 2:05-2:30pm

Time	Topic
0-3 mins	Moderator + panelist introductions
4-6 mins	Current landscape of openSFI & UPCI with standards and open-source
7-11 mins	What happens when we need to change a standard or make a “new” one? (Dong starts)
11-15 mins	How do we improve communication and awareness to facilitate progress? (Christian starts)
15-21 mins	Where should POC work be led? which repo or repos? (Mike starts, Christian)
21-24mins	audience questions (if time) (Allison facilitates)
24-25 mins	What is one thing we should prioritize doing next to increase the collaboration between OPF, standards, and open source? (All, lightning round)
25 mins	Close w/action slide (Allison)
