OPEN PLATFORM FIRMWARE (OPF)

Open Platform Firmware (OPF) - Project Update

Murugasamy “Sammy” Nachimuthu *Core Infrastructure Engineering Architect, Oracle*

Raj Kapoor *Fellow, Chief Firmware Architect, AMD*

Confidential - Oracle Restricted \Employees Only

OPF Track Presentations - Introduction

- Open Platform Firmware (OPF) track covers system firmware and the system firmware interactions with subsystems like hardware management and security
- We have 7 presentations and 2 panels. There is a 5 minutes break between the presentations
- We have reduced presentation time to 15 minutes to fit more presentations
- Please use **mic** to ask questions and use the break for any follow up questions.

OPF Track Presentations (SJCC - Lower Level - LL20BCD)

Time	Title
12:30 pm	Open Platform Firmware (OPF) - project update
12:45 pm	openSFI Update: Advancing Silicon Firmware Interoperability
1:05 pm	Advancing Flash-less Boot in OCP Systems: A Streaming Firmware Architecture for Secure and Scalable Infrastructure
1:25 pm	From Code to Data: Advancing the Unified Platform Configuration Interface (UPCI)
1:45 pm	Dynamic Platform Abstraction for BMC Firmware via Host-Delivered Libraries
2:05 pm	Building Bridges for Adoption: OCP, Standards Bodies, and Open-Source Firmware (panel)
2:30 pm	Break
2:45 pm	Scaling Memory Safe Security Across Firmware Stack (panel)
3:20 pm	Trusted, AI-Ready Open Firmware: From Auditable Foundations to Agentic Lifecycle Automation
3:45 pm	The Next Evolution of Intel's FSP: Aligning to openSFI and UPCI

Open Platform Firmware (OPF) - Project Update

- Open Platform Firmware (OPF) project
  - Steering Committee Representative: Dong Wei (ARM)
  - Leads: Raj Kapoor (AMD), Murugasamy "Sammy" Nachimuthu (Oracle)
  - Thank you for Jean-Marie Verdun
  - Meets alternates weeks: Thursday 9:00 am to 10:00 am PT

- OPF has three active workstreams
  - Open Silicon Firmware Interface (openSFI) workstream
  - Unified Platform Configuration Interface (UPCI) workstream
  - Open Platform Firmware Update workstream

Confidential - Oracle Restricted \Employees Only

Open Platform Firmware (OPF) - Project Update

- Open Silicon Firmware Interface (openSFI) workstream
  - Leads: Raj Kapoor (AMD), Allison Goodman
  - Spec 0.3 released, Spec 0.5 development in progress
- Unified Platform Configuration Interface (UPCI) workstream
  - Leads: Felix Polyudov (AMI US Holdings Inc.), Tim Lewis (Insyde Software)
  - Spec 0.3 review in progress
  - Spec 0.5 development in progress
- Open Platform Firmware Update workstream
  - Leads: Sammy Nachimuthu (Oracle), Vishal Soni (Microsoft)
  - New workstream; identification of existing work and requirements are in progress
  - Spec 0.5 development in progress

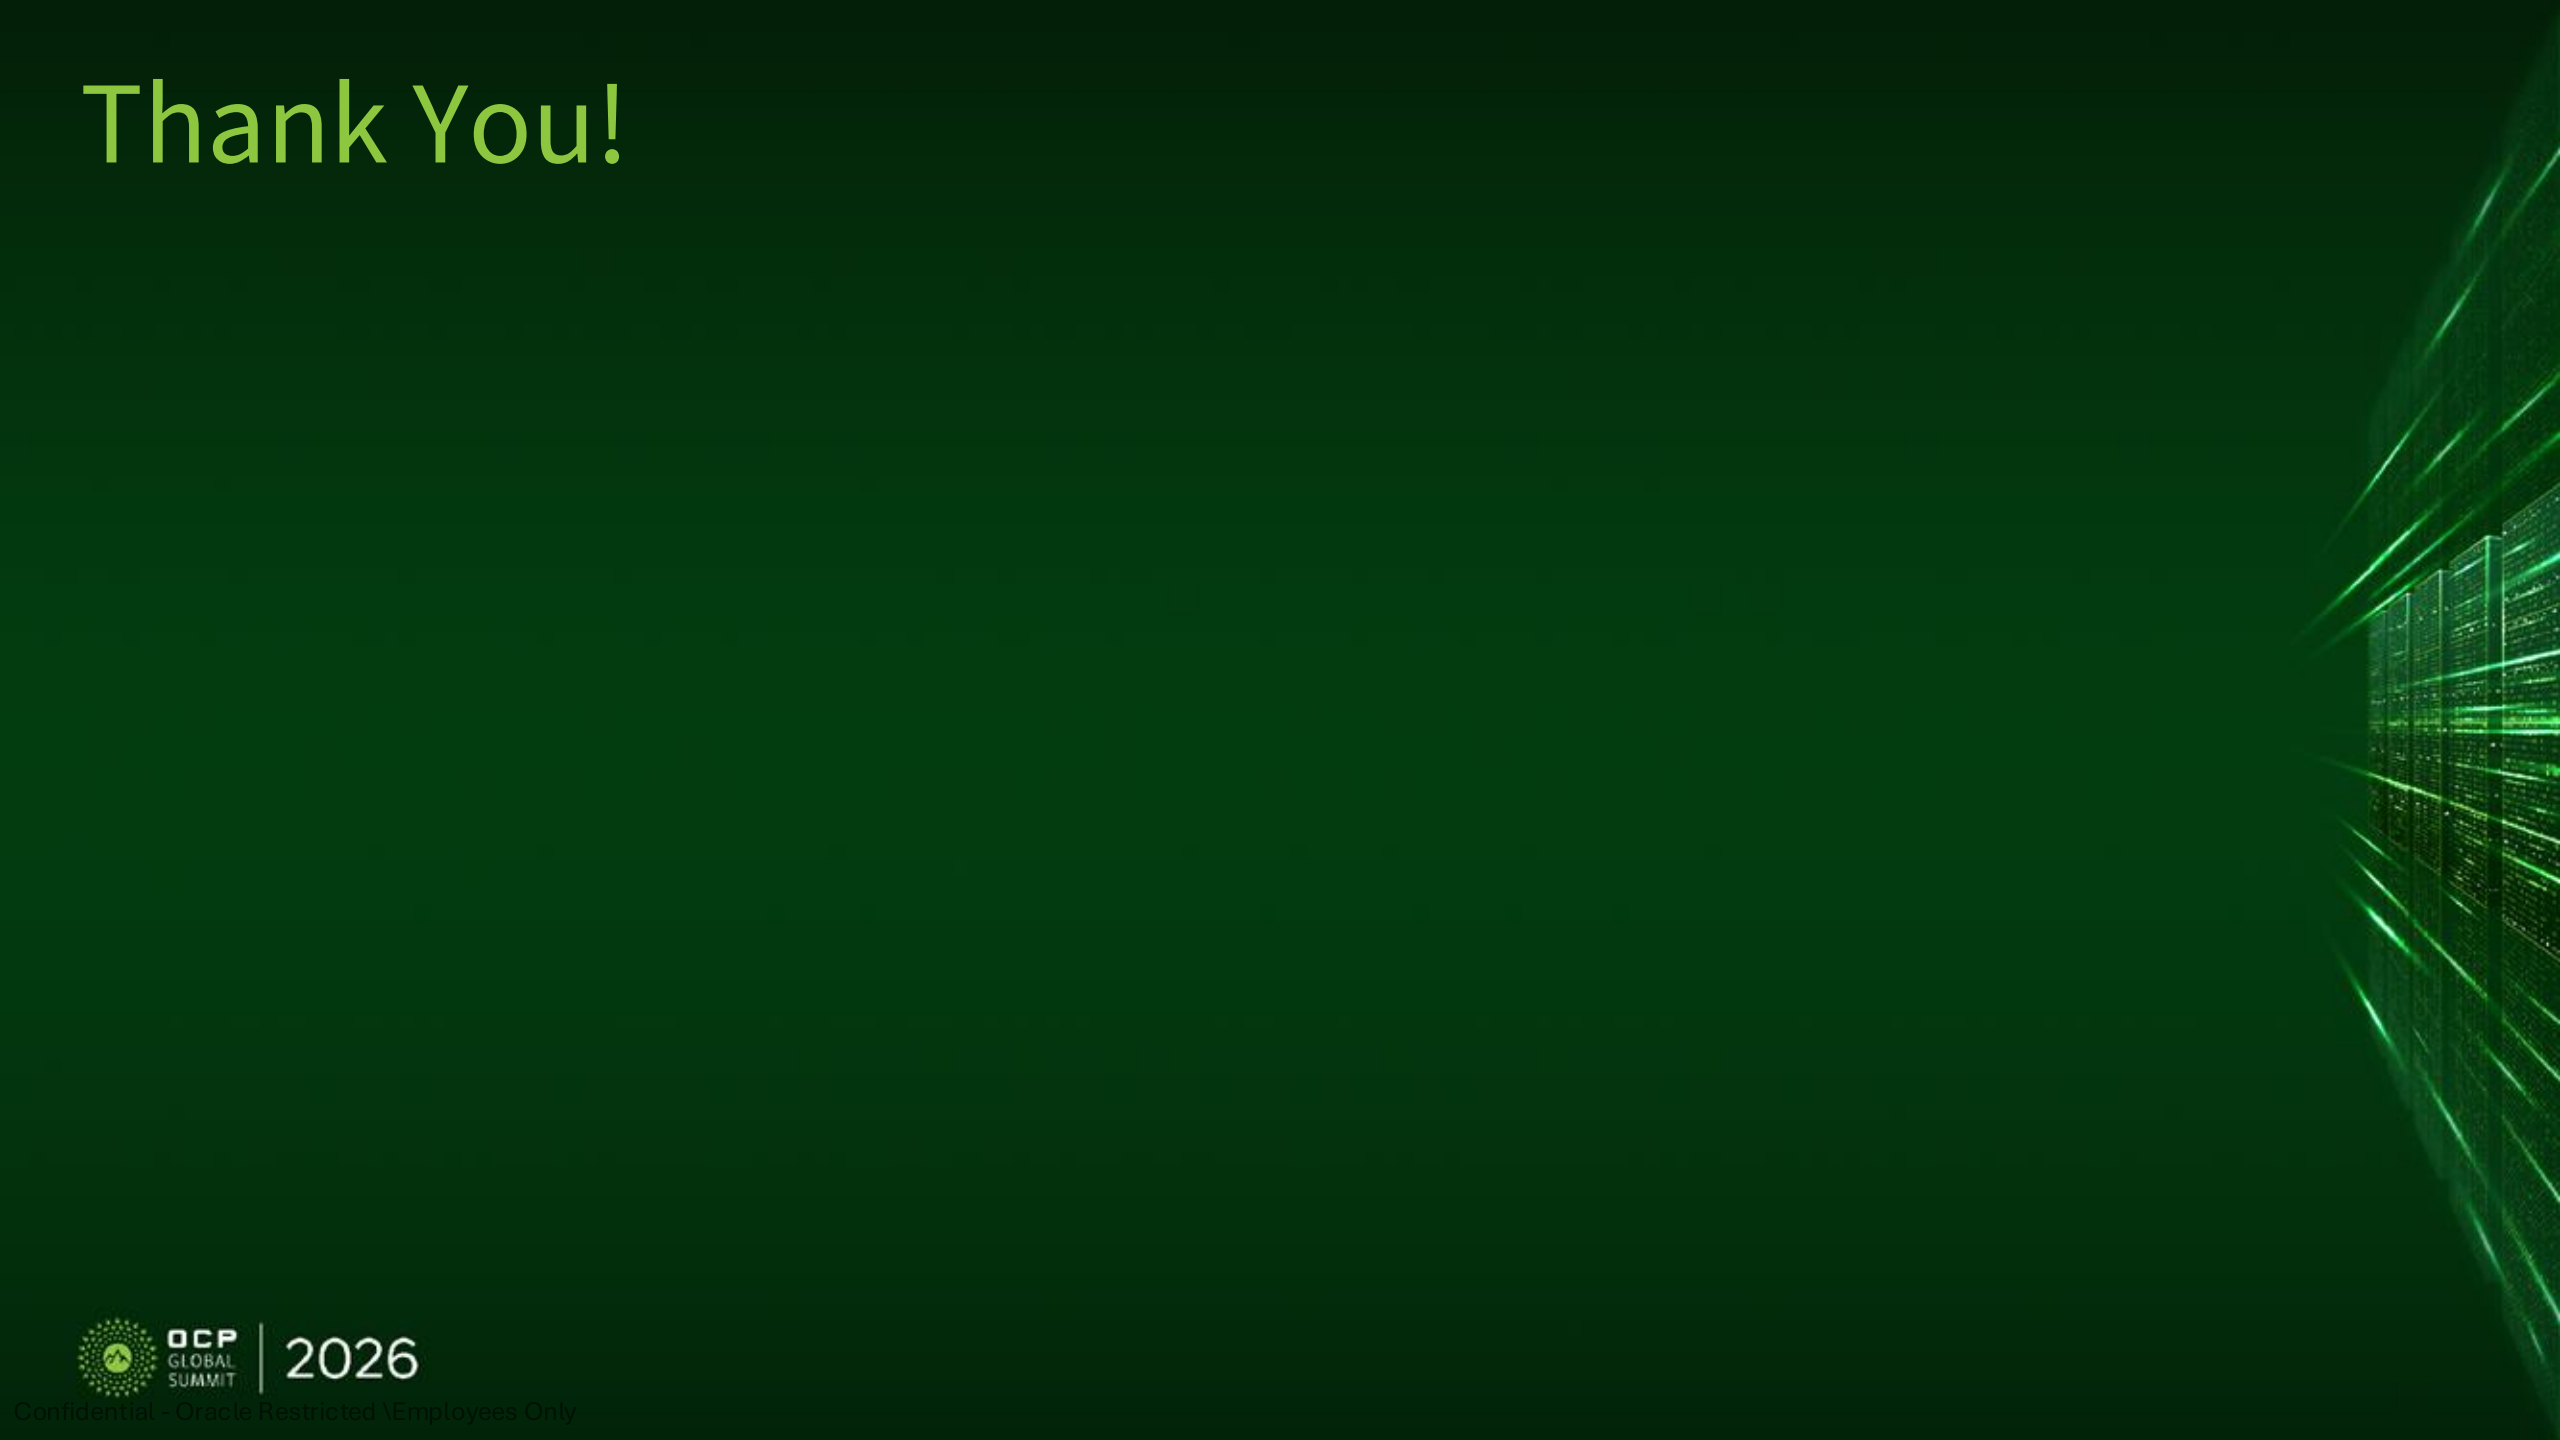

Confidential - Oracle Restricted \Employees Only

Call to Action

- openSFI and UPCI specification work in progress
  - Please join the workstream on contribute to finalize the specification and reference implementations
  - ETA for next specification versions by end of 2026
- Open Platform Firmware Update workstream
  - The workstream is planning review existing firmware update work and define detailed deliverables roadmap
  - Silicon vendors, CSPs/MDCs, Hyperscalers, IBVs, OSVs get involved to create comprehensive firmware update solution
- Join the workstreams and contribute
- https://www.opencompute.org/community/open-system-firmware
