OCP Welcome Address

George Tchaparian

OCP GLOBAL SUMMIT

October 12-15, 2026
San Jose, California

2026 OCP Global Summit

Scaling Innovation for the AI Era

OCP GLOBAL SUMMIT | 2026

Yesterday I covered:

Membership and Contribution Metrics

OCP Vision 2027 and Beyond:

- **Silicon Diversity**
- **Co-Optimized Data Center Initiative**
- **Hyperscale Adjacent AI**
  - **Computing Continuum**

Today I will cover:

OCP Marketplace Metrics

OCP Academy Progress and Metrics

OCP Vision 2027 and Beyond:

- **Energy**
- **Open Cluster Designs for AI**
- **Security**

OCP Marketplace

Solution Provider Program Update

183

Solution providers

+32% YoY

vs. 139 last year

33

OCP Experience Centers

+43% YoY

vs. 23 last year

26

OCP Ready™ data centers

+30% YoY

vs. 20 last year

36K

Avg. site views per month

+38% YoY

vs. ~26K, Jan–Aug 2025

213

AI-related product listings

+46% YoY

vs. 146 last year

683

Marketplace product listings

+39% YoY

vs. 491 last year

OCP ACADEMY

academy.opencompute.org

6,000+
learners

30,000+
hours spent learning

100+
courses in 30+ series

Free to the public and OCP community. Open source on GitHub.

Translations: Simplified and Traditional Chinese, Japanese, Korean, Vietnamese, Portuguese and Spanish (LATAM)

The OCP Open Data Center Ecosystem Vision

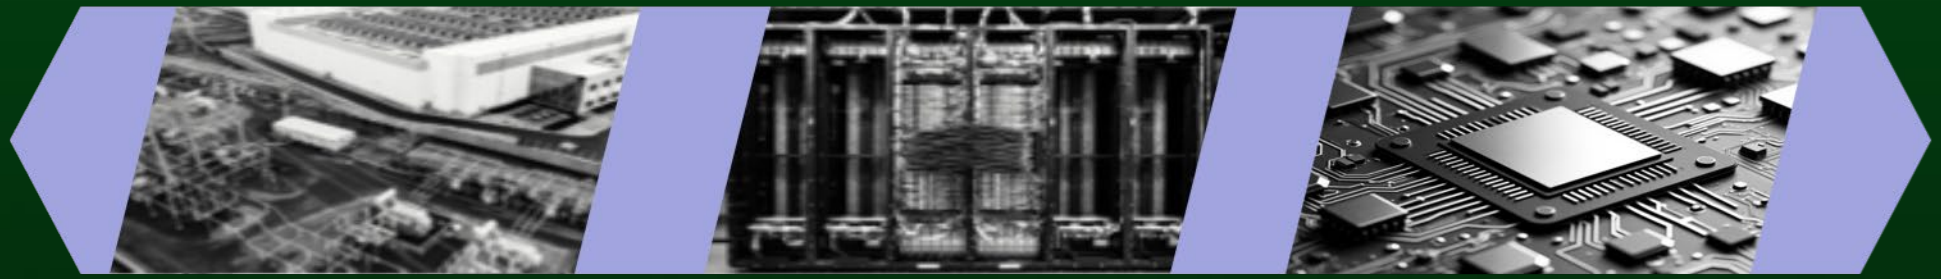

Launched October 2025

Strategic Domains: AI DCs, Cloud DCs, and the AI Computing Continuum

From Hyperscale to End User (Hyperscale Adjacent)

Technology Scope: Facilities & Physical Infrastructure, IT Infrastructure, and Systems Management

From Grid to Chip

Realizing the Open Data Center Ecosystem Vision

2026 - A Year of Tremendous Progress

New Open Data Center for AI

RoadMap Specification for: Facilities, Physical Infra, Power, Cooling, etc.

800 VDC Distribution to Its Evolution to 1500 VDC

IT and OT Telemetry Mgmt

CurrentOS

Energy

Focus areas
Generation and Storage

Latest contributions
Requirements for Energy Storage Systems Used in Data Centers

Hyperscalers to Utility Grid Interface Specification

EPRI

AI Clusters

Reference Designs

Open Rack
ORW & HPR Specifications

Networking
ESUN, SUE-T and MRC Specifications

Silicon
FCSA and BoW Flexi Specifications

Many Contributing Members

AI Computing Continuum

New Use Cases

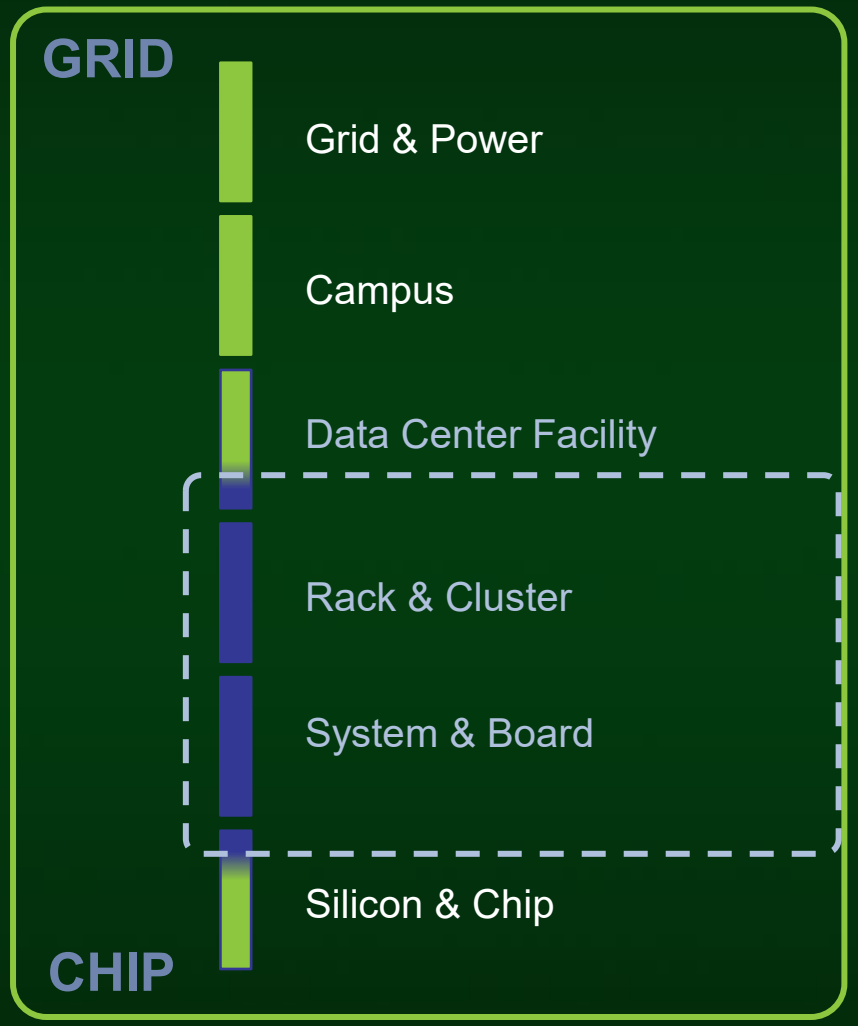

AI-Native Edge-MHS Host Processor Module Specification

IOWN GLOBAL FORUM

OCP ACADEMY

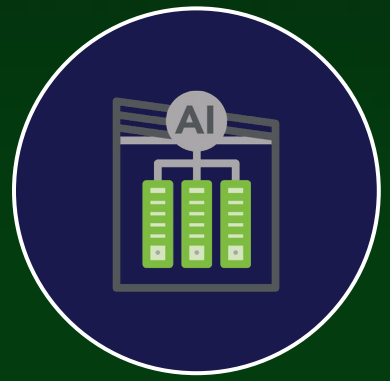

The OCP Open Data Center Ecosystem Vision

2027 and Beyond

$890 Billion, 2030

Strategic Domains:

AI Data Centers

Cloud Data Centers

AI Computing Continuum

From grid to chip, built in the open by the OCP Community!

Where OCP began | AI-era expansion | Extended for AI

OCP GLOBAL SUMMIT | 2026

Energy

OCP Energy Subproject · Launched in Q2

Energy

Coordinating grid interaction, energy generation, energy storage, power distribution, renewable integration, and energy optimization

Storage

Energy storage in data center facilities

Generation

Large load flexibility, on-site and standby generation

Complements Power Distribution:
reducing conversion losses

Contributions to date

- Interface Specification Between Hyperscalers and Utility Grid for Disturbance Performance V1.0.0
- Requirements for Energy Storage Systems Used in Data Centers

Get involved

Scan to join the Energy mailing list

Open Cluster Design for AI

Open cluster row, rack designs and scale-out configurations

OPG-M

Finished — Air-cooled pod design with 400GE, early 2026

In progress — DLC-cooled 576-pod design with 800GE / 1.6TE network

XOC-N

Every element of a scale-out domain:

- Spine / Aggregation
- Head-end
- Networking
- Cluster & workload mgmt
- Cluster resources
- Client resources

OCP Security

Securing the Open Hardware Supply Chain

2022

Caliptra

Open silicon root of trust

2023

OCP S.A.F.E.™

Security Appraisal Framework & Enablement

Independent device security reviews

2026

OCP S.O.L.I.D.

Securing Of Latest Infrastructure Devices

For products that touch or impact production data (e.g. servers, UPS, etc.)

NOW

AI-enabled threats

Post-quantum transition

Isolation, key protection and hardware resilience

Upcoming Keynotes

Tuesday, October 13 · South Hall

9:15 AM	Microsoft	**Intelligence Infrastructure: Scaling AI for the Frontier Era** Reynold D'Sa, Microsoft
9:35 AM	ORACLE	**Scaling AI Infrastructure Responsibly Through Open Standards** Pradeep Vincent, Oracle
9:55 AM	WOCP WOMEN IN OCP	**Women in OCP (WOCP) – Community First, AI Forward** Panel: Sung A Kim, Allison Boen, Anu Ramamurthy
10:00 AM	LATTICE SEMICONDUCTOR ami	**Secure Control and Management Plane (SCMP): From AI Racks to Autonomous Infrastructure** Ford Tamer, Lattice Semiconductor; Sanjoy Maity, AMI
10:15 AM	HPE	**Scalable and Open AI Solutions: From Cloud to Sovereign to Edge** Trish Damkroger, HPE
10:30 AM	intel.	**Put Every Prompt in Its Place** Nic Dubé, Intel
10:50 AM	ABB EATON	**Shifting to DC Power Distribution in Data Centers: A Collaborative Journey** Paolo Catapane, ABB; Peter De Bock, Eaton
11:10 AM	Google	**Intelligent Infrastructure for the Intelligence Era** Partha Ranganathan, Google

Thank you

Stay with us for the keynotes that follow.
