MARKET IMPACT
& ADOPTION

Welcome & Overview: Scaling Open Infrastructure from Innovation to Adoption

Ewa McCurdy

Solution Provider Program Manager, Open Compute Project Foundation

What's Ahead in This Track

18 sessions over two days in room LL21DE, from market signals to real deployments.

Market & AI economics

TUE 1:20 PM
SemiAnalysis
From Silicon to Services

WED 8:00 AM
IDC
Rack-scale AI, from chip to grid

WED 9:15 AM
McKinsey & Company
Compute demand to capacity

WED 9:45 AM
Johnson Controls
More tokens, same megawatts

Building at scale

TUE 1:45 PM
Crusoe
Modular, factory-built AI clusters

TUE 2:10 PM
Bloomberg, Dell, Oracle, Vantage
Panel: the inference era

TUE 3:20 PM
QTS & Kele
From projects to platforms

TUE 4:45 PM
AMD & Dell
Open Adapter Card

WED 8:55 AM
Meta
An open BOM interchange standard

Power & cooling

TUE 3:45 PM
AMI
Unified power management

TUE 4:05 PM
EPRI
Faster access to power

TUE 4:25 PM
NVIDIA
Power smoothing at the rack

WED 8:25 AM
Dow, AMD, Vertiv, ChemTreat, Microsoft
Panel: PG25 at scale

Trust & adoption

TUE 3:00 PM
Denvr & Amii
Scaling sovereign AI

WED 10:05 AM
Microsoft & Google
S.A.F.E. & S.O.L.I.D. for AI

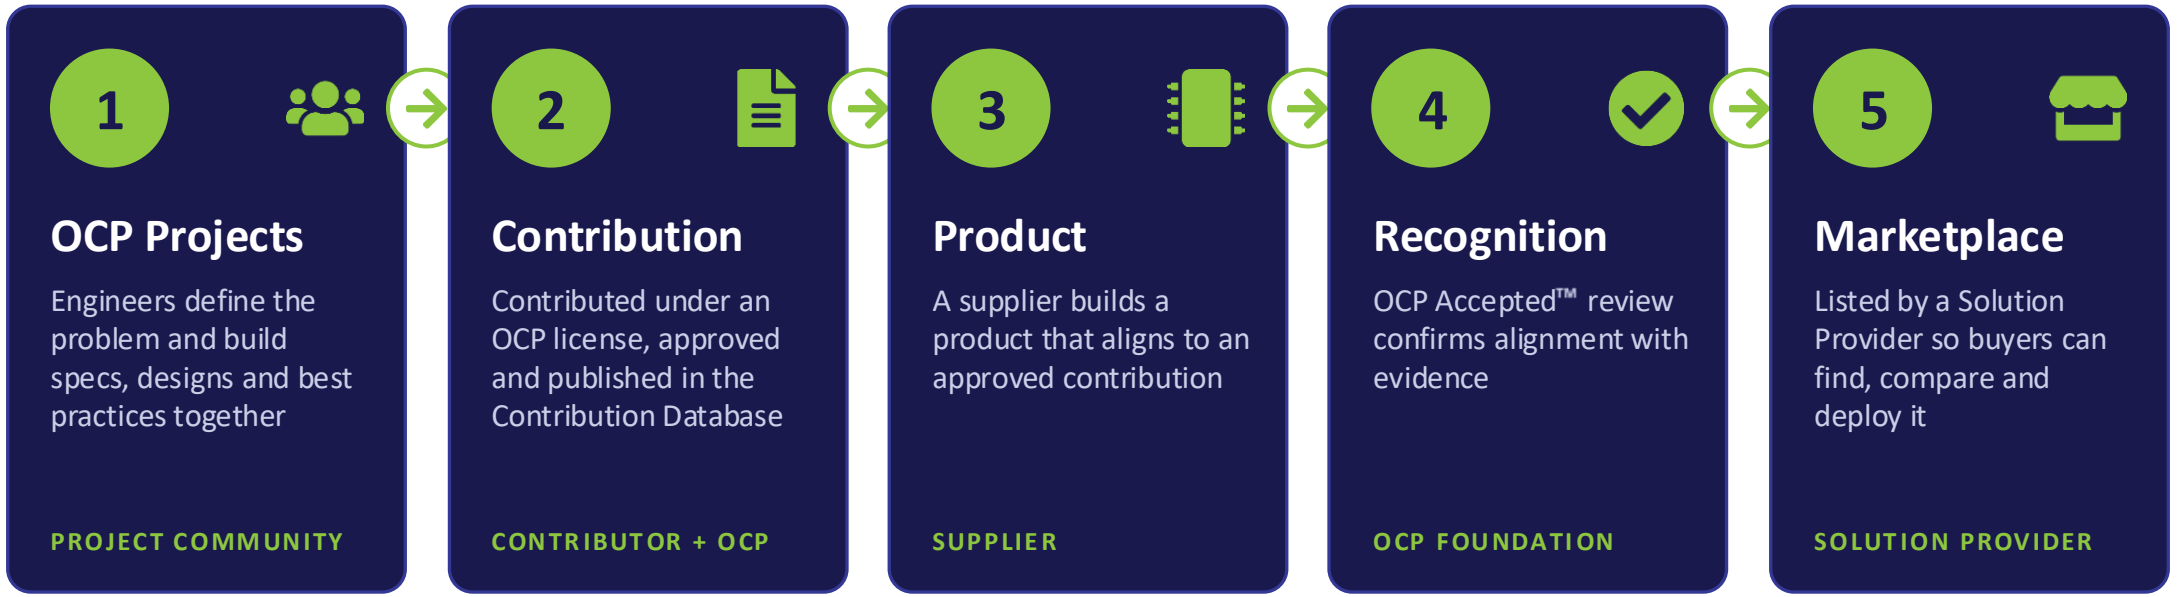

WED 10:30 AM
ScaleUp Technologies
OCP adoption in Europe

WED 10:55 AM
Edgecore
Open networking deployments

WED 11:15 AM
RackRenew
OCP in action with Brigade

From Project to Marketplace

Every Marketplace listing starts as open community work.

Why it matters to buyers: a recognized listing is traceable back to an open, community-approved spec.

The OCP Adoption Engine

Buyers ask five questions before they commit. OCP has a program for each.

WHO DELIVERS IT?

OCP SOLUTION PROVIDER

Solution Providers

Vetted companies that sell, integrate and support OCP-aligned solutions

DOES IT ALIGN?

OCP ACCEPTED™

OCP Accepted™

A specific product reviewed against an approved OCP contribution

IS IT SECURE?

OCP S.A.F.E.™

OCP S.A.F.E.™

Device firmware reviewed by an approved Security Review Provider

CAN I SEE IT?

OCP Experience Center

OCP Experience Centers

Hands-on sites to see, test and run presales on OCP gear

WHERE DO I RUN IT?

OCP READY™

OCP Ready™

Colocation facilities ready for high-density and AI workloads

All discoverable in one place: **opencompute.org/marketplace**

OCP Marketplace by the Numbers

Is it working? Every Marketplace metric is up 30% or more year over year.

36K
Avg. site views per month
+38% YoY
vs. ~26K, Jan–Aug 2025

183
Solution Providers
+32% YoY
vs. 139 last year

683
Marketplace listings
+39% YoY
vs. 491 last year

213
AI-related listings
+46% YoY
vs. 146 last year

33
OCP Experience Centers
+43% YoY
vs. 23 last year

26
OCP Ready™ data centers
+30% YoY
vs. 20 last year

One Product Mark: OCP Accepted™

Does it conform? OCP Inspired™ is retired: one clearer product signal, same bar.

The single OCP product recognition mark

Tied to the product

Covers the specific product reviewed, not a company's full catalog.

Approved contribution

Must align to an approved OCP contribution and pass Foundation review.

No more tiers

Contributing design files no longer splits recognition into two levels.

Ready for market

Shown in the Marketplace and in approved product marketing.

The Path to OCP Accepted™

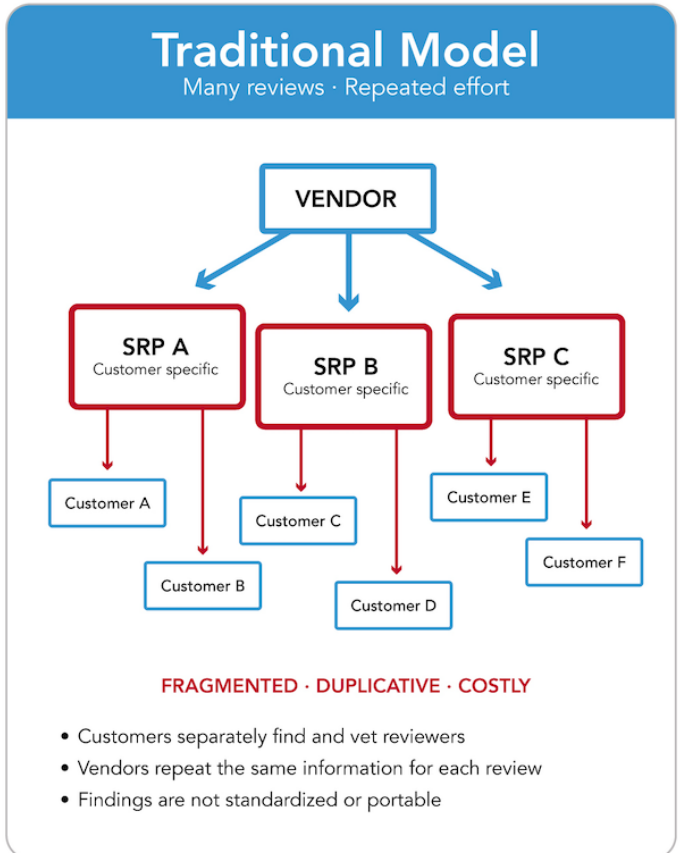

Does it conform? One product. One approved contribution. Clear evidence.

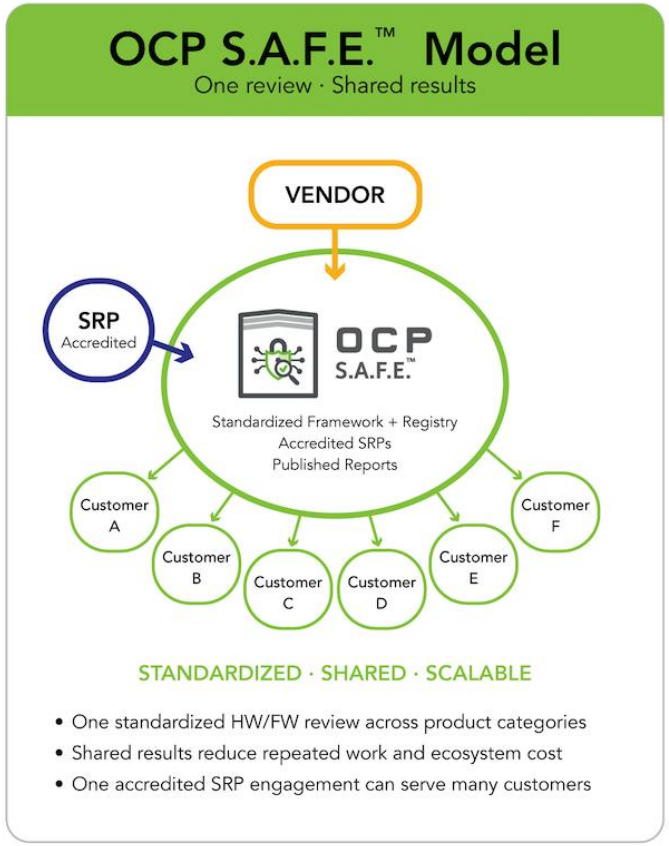

1	2	3	4	5
SELECT	**ALIGN**	**VALIDATE**	**REVIEW**	**RECOGNIZE**
Choose the product and answer the category questions	Name the specific OCP-approved contribution it follows	Upload evidence that supports the alignment	OCP Foundation reviews and resolves questions	Sign agreements, verify membership, list in the Marketplace

Start with one question: which OCP-approved contribution does this product align with, and what evidence shows it?

OCP S.A.F.E.™: Review Once, Trust Many Times

Is it secure? One shared review replaces repeated customer-by-customer audits.

1 review

by an approved Security Review Provider

Many customers

reuse the same published short-form report

In the Marketplace

the report sits alongside the approved device

Two Programs, One Global Directory

Where can I see it and run it? OCP Ready™ facilities and OCP Experience Centers on 5 continents

OCP Ready™ facility · OCP Experience Center · Larger dot = multiple sites

26

OCP Ready™ Data Centers

+30% YoY · vs. 20 last year

Certified colocation for higher-density compute, AI and ML workloads

33

OCP Experience Centers

+43% YoY · vs. 23 last year

See OCP gear in person, run presales, build pre-product concepts

Browse all: **opencompute.org/data-center-facilities-and-experience-centers**

Call to Action: Your Next Move

Three audiences, three things you can do this week.

Buying or deploying

- Search the OCP Marketplace
- Filter for OCP Accepted™ products
- Ask suppliers for OCP S.A.F.E.™ reports
- Visit an OCP Experience Center

opencompute.org/marketplace

Building products

- Join the SP Program
- Take the Academy intro course
- Submit a product for OCP Accepted™
- Pursue OCP S.A.F.E.™

opencompute.org/sp

Running facilities

- Get your site OCP Ready™ self certified
- Host an OCP Experience Center
- List your facility on the map
- Meet the SP team this week

Facilities & Experience Centers

Thank You!

Questions? Find me anywhere at the Summit this week.
