OCP in Action: How RackRenew's Hardware Enables Brigade's Open, Self-Service Platform

Matty Bakkeren

Global Partnerships & Alliance Manager, RackRenew

OPEN Compute Project SOLUTION PROVIDER

RackRenew
A Brand of Sims Lifecycle Services

TECH brigade

The Challenge

Cost effective, OPEN, self-service cloud platforms.

Current cloud ecosystems suffer from:

- **Supply chain challenges:** Availability, lead times, pricing
- **Dependency on closed systems**: vendor lock-in, vertical stacks, limited control over hardware, data location, and cost structures.
- **Sustainability concerns**: Closed systems hinder hardware reuse, efficiency, and long-term viability.
- **Regulatory and security risks**: Data sovereignty and compliance can be challenging to guarantee with third-party providers.

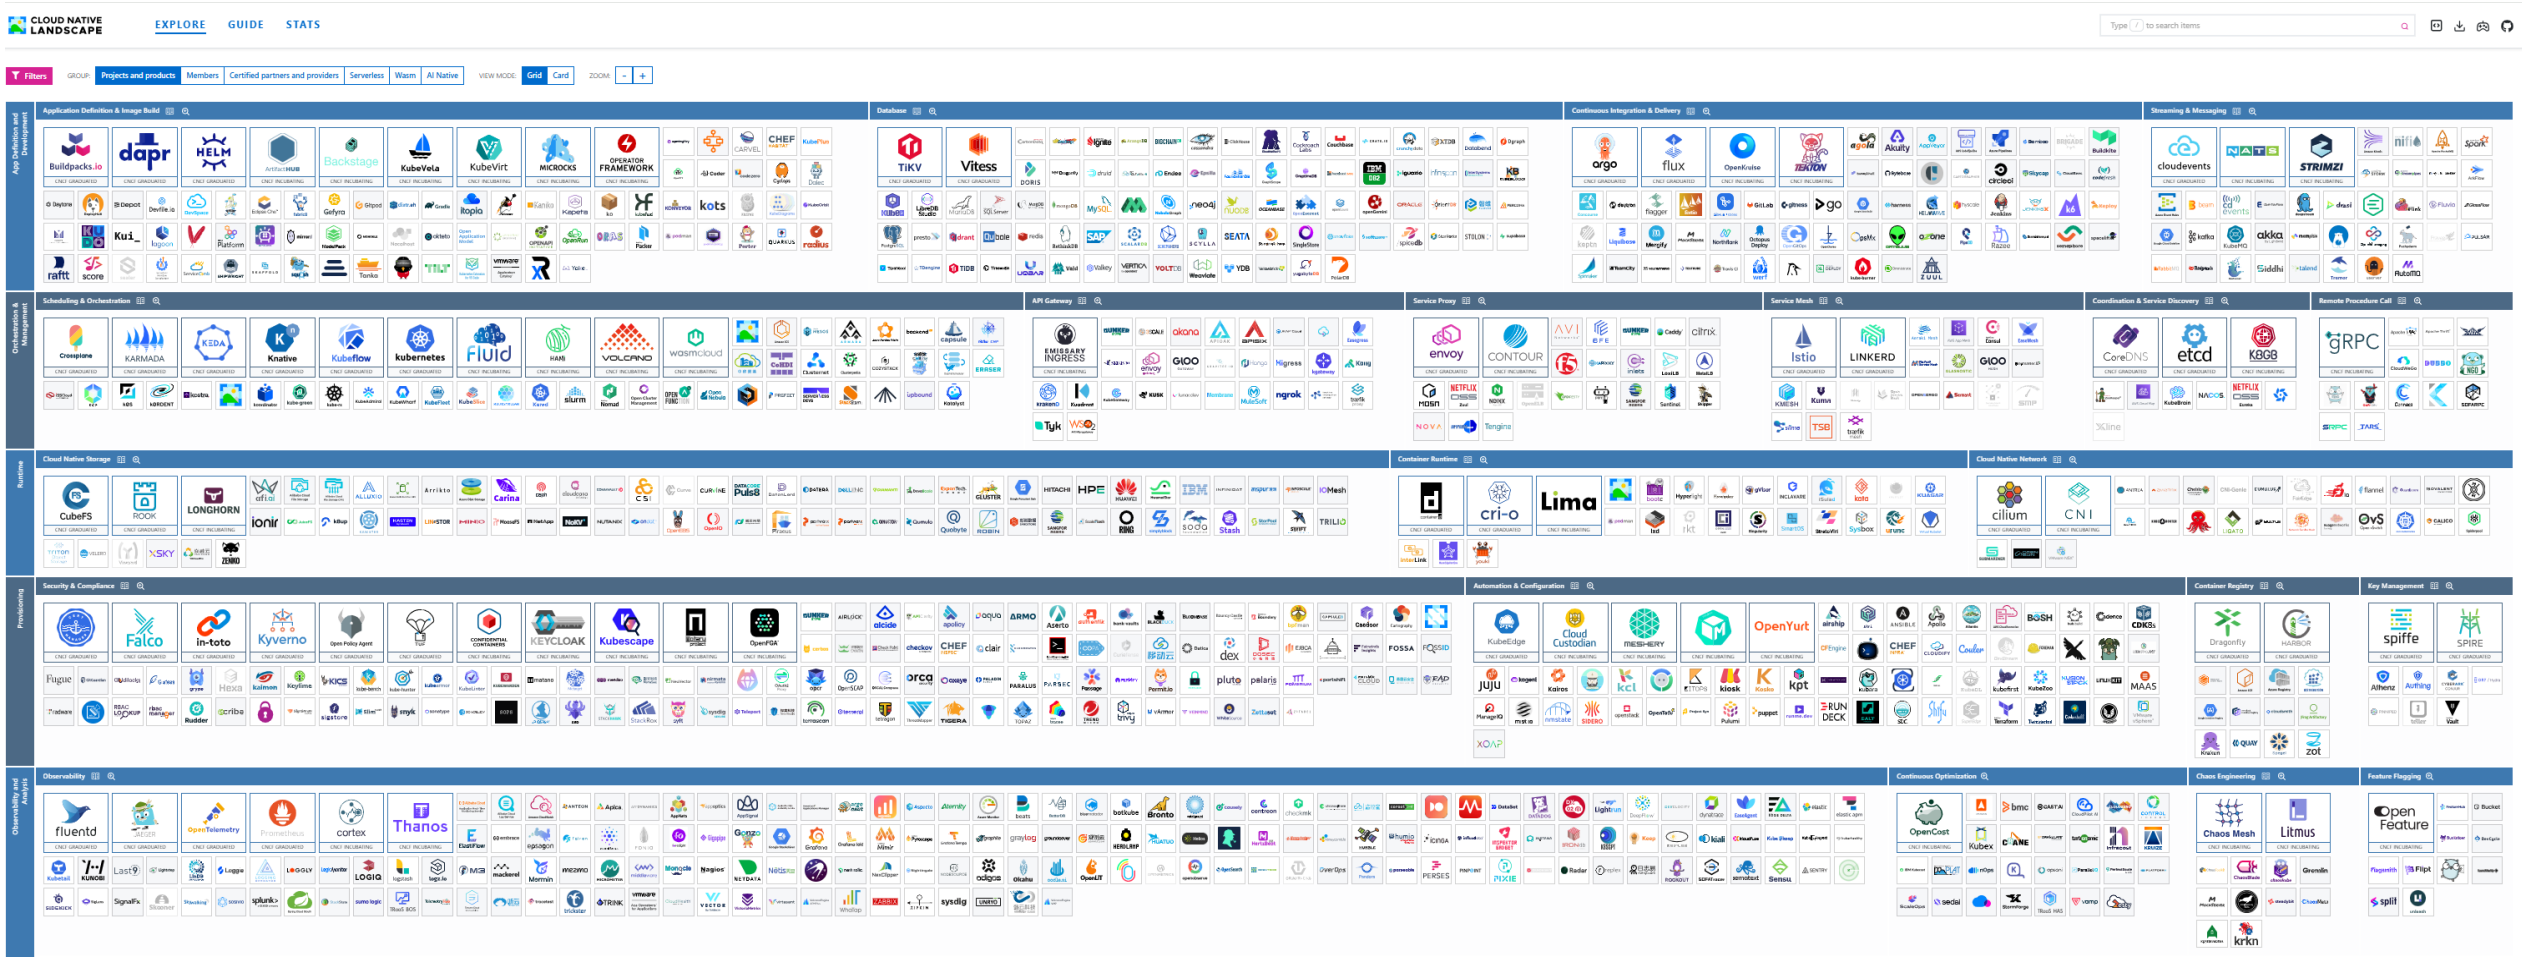

The Solution

Brigade built an Open Platform that runs on **OCP Accepted remanufactured hardware** by **RackRenew,** creating a customizable, open, ready to deploy solution. Benefits include:

- **Independence**: Avoid vendor lock-in by using open standards and modular OCP hardware.
- **Bare-Metal Control**: Enables custom orchestration tailored to specific workloads.
- **Sovereignty**: Full control over data location, processing, and storage, ensuring compliance with strict data protection laws.
- **Security**: Guarantee data safety and up to date firmware.
- **Sustainability**: Remanufactured hardware reduces e-waste and extends the lifecycle of IT assets. Zero to low embodied carbon.
- **Cost reduction**: Lower platform costs while maintaining user-friendly consumption.

Brigade/RackRenew Solution overview

TECH brigade

Platform secure by design with goal to make NIS, ISO, + local compliant

Call to Action

- Join the OPEN innovation engine!
- Subscribe to get access to Brigade open-source platform
  - https://brigade.nl/techbrigade/open-source-platforms/
- Deploy on RackRenew OCP hardware
  - Reduces costs
  - Avoids vendor lock-in
  - Ensures compliance
  - https://rackrenew.com/products/compute/
- Visit the RackRenew Experience Center
  - https://www.opencompute.org/facilities/102/ocp-experience-center-la-vergne-tn-hosted-by-rackrenew

Visit us at booth # T31

Thank You!
